- RPC Capabilities
- Custom Split Case Capabilities
- Single Wrap Sealed Products
- Tray Pack and Clamshell Programs
- Bagged Citrus and Vegetable Capabilities
- ECO Tray Packed Organic Vegetable Program
- ECO Tray Packed Organic Fruit Program
- Organic Break Case Certified

QUALITY INSPECTION

We inspect each item to ensure that the quality, sizing, and color of the product matches your standards and provides uniformity to your retail set.

We inspect each item to ensure that the product is labeled and stickered properly. We have traceability of each product unit to prevent and quickly solve any food safety concerns.

Our products and processes save you valuable labor, ensure maximum food safety, and create profitability assurances at the register.

PACKAGING

Our **Clysar® Produce Shrink Film** is designed to protect and preserve respiring fruit and vegetables while using sustainable resources. Our polyfin shrink film extends shelf life and minimizes food waste while protecting products from contamination.

Our eco-friendly packaging is a win-win for your customers and the environment.

FEATURES

Alleviates Air

Micro-perforations allow respiring fruits and vegetables to breathe

Locks in Freshness

Controls perspiration and water loss, extending shelf life

Maintains Cleanliness

Protects against contaminants during distribution and consumer handling

Shrinks Beautifully

Shrinks evenly and tightly around unique produce shapes

Shines at Retail

Delivers outstanding optics and can be printed with colorful graphics, eliminating secondary labeling

WHY SHRINK WRAP PRODUCE?

Broccoli wrapped in crystal clear Clysar® film demonstrates the benefits:

- Prevents 33% moisture loss over 6 days
- Stays greener
- Retains more ascorbic acid (vitamin C)
- Keeps broccoli clean and protected
- Stops condensation from clouding the film
