# LEMON PLUMS

Lemon plums are yellow or greenish-yellow with a pointed end that is often tipped with a reddish magenta. The heart-shaped plums have a fragrant aroma. As they mature, the color at the tip grows to cover the whole fruit in a rosy red blush. Lemon plums are very juicy and have a mild, sweet flavor when fully mature.

## Usage Tips

Best eaten fresh, out-of-hand

Add slices to both green and fruit salads

Mix into smoothies with berries and other fruit

High in vitamins A and C
