# BROCCOLINI

Broccolini has spear-shaped, thin, and tender green stems. The head is a loose small cluster of florets that resemble broccoli rabe. Its flavor is understated, mild, peppery, and subtly sweet. The entire plant is edible.

## USEAGE TIPS

Can be sauteed, steamed, roasted, grilled, and fried.

Flavor marries well with butter, olive oil, lemon, lime, light-bodied vinegars, garlic, tomatoes, chiles, cured meats such as pancetta and prosciutto, flaky white fish, hard cheeses such as parmesan and pecorino, or fresh cheeses such as chevre and feta.
