IN SEASON

SWEET SAPPHIRE® GRAPES

This grape has a dark purple, almost black skin; the interior fruit is translucent green and seedless. Sweet Sapphires® live up to the description with a dessert-sweet flavor from a sugar content that exceeds all other varieties. Each grape is firm enough to be snapped in half and large enough to be stuffed.

USAGE TIPS

Serve as an interesting party platter finger food, as the base for a full-bodied reduction sauce or simply as a tasty sweet out-of-hand snack fruit.

Serve the Sweet Sapphire grapes with other varieties on a cheese platter.
