RASPBERRIES

Raspberries are an aggregate fruit of individual drupelets that are held together by very fine, nearly invisible hairs. Their flavor can range from sweet-tart to low acid and jam-like depending on growing region and variety.

Highlights

Most often utilized in sweet applications, such as jams, jellies, desserts and other baked goods.

Barbecue sauces, marinades and homemade ketchup all benefit from a touch of Raspberry.

Other complimentary pairings: cocoa, exotic fruits, raisins, creamy and bloomy rind cheeses, honey, peaches, coconut, cinnamon, blueberries, cardamom, and lavender.
