Dear Valued Customer:

As you may be aware, the FDA / CDC announced yesterday, 12/13/18, that a positive sediment sample linked to the most recent strain of E.Coli O157:H7 romaine lettuce advisory was identified. The same strain was identified in a local irrigation reservoir used by a single owned and operated farm known as Adams Bros. Farms in Santa Barbara County. We are writing to assure you that Earthbound Farm does not have a business relationship with nor has Earthbound Farm sourced from Adams Bros. Farms.

As always, the healthfulness, safety, and quality of Earthbound Farm products is our top priority for our customers and consumers.

If we can help answer any questions or concerns, please don't hesitate to reach out to your respective Earthbound Farm Customer Business Manager.

Thank you for your continued support in our business!

A handwritten signature in black ink, appearing to read "Alan Ediger". The signature is fluid and cursive, with a long, sweeping tail on the final letter.
