MERCHANDISING TIPS

- Tie-in with extra dips such as dipping chocolate, dressings, and yogurt dips.
- Display in a high-traffic refrigerated section at eye-level. Easy visibility is important to moving perishable items as quickly as possible.
- Create a destination center with signage. Precut and ready to eat products offer shoppers what they demand - convenience and healthy-eating.
- Built-in dips add convenience.
- Display Garden Grillers in a secondary display in the meat department next to other grilling essentials.
