

November 20, 2018

Dear valued **organicgirl** customer:

The Center for Disease Control has advised consumers not to eat any types of romaine lettuce, including: whole heads, hearts of romaine, chopped romaine, baby romaine, organic romaine, salads, and salad mixes containing romaine.

Please be aware our facilities have **NOT** been contacted by any regulatory agency in connection with this outbreak investigation however, out of an abundance of caution, and in response to the recommendations announced by CDC and FDA, we are removing all romaine from all salad blends.

For **organicgirl** products, this includes (all sizes):

- 50/50 blend
- baby spring mix
- I heart baby kale
- Lucky spring mix
- Lucky 50/50 blend

This change is effective starting today, November 20th, in our Salinas, CA facilities and tomorrow, November 21st in our regional processing facilities (Atlanta GA, Columbia SC, Covington KY). All **organicgirl** products with a use by date of Dec 6th, 2018 will not contain romaine.

In addition, due to the announcement from the CDC we will pause on producing any 3pk romaine and 7oz romaine leaves until further notice or upon customer/consumer request.

We appreciate your loyalty and support and will continue to work hard to meet your expectations.

Sincerely,

Thea Eubanks
Director of Food Safety and Quality Systems
